## PROFESSIONAL SUMMARY

I am a proficient software engineer specialized in JavaScript, Node.js, and front-end development, delivering high-quality solutions across diverse projects. With expertise in optimizing code efficiency and enhancing user experience, I consistently bring tangible results. Passionate about innovation, I thrive in dynamic environments and commit to excellence in every project.

## SKILLS

- Web Design
- JavaScript
- NodeJS
- ReactJS
- HTML
- CSS

## EDUCATION

**SECONDARY SCHOOL** 2012

SCORE: 78.73%

**HIGHER SECONDARY SCHOOL** 2014

SCORE: 60.77%

**BACHELOR OF ENGINEERING IN COMPUTER SCIENCE** 2018

SCORE: 63.47%

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER**

Pratiti Technologies

Jan 2022 - Present

- Utilized JavaScript, HTML, SASS, and ReactJS to develop applications within SWF (Siemens Web Framework).
- Played a key role in delivering a major project within a one-year timeframe, showcasing proficiency in frontend development and project management.
- Contributed to the enhancement and optimization of SWF, ensuring high-quality and efficient code implementation.
- Collaborated closely with team members to meet project requirements and deliverables effectively.

## SOFTWARE DEVELOPER

Intellection Software & Technologies

Jul 2020 - Sep 2020

- Developed applications using Django, React, jQuery, Bootstrap, CSS, and HTML in a previous role.
- Leveraged Django for backend development and React for frontend, ensuring seamless integration and user-friendly interfaces.
- Utilized jQuery and Bootstrap to enhance interactivity and design elements, resulting in improved user experience.
- Demonstrated proficiency in CSS and HTML to create visually appealing and responsive web applications.
- Collaborated with cross-functional teams to deliver projects on time and meet client requirements effectively.

## INNOVATION ASSOCIATE

ATA Freight

Aug 2018 - Jul 2020

- Single-handedly led the development and delivery of a project using Django, React, jQuery, Bootstrap, CSS, and HTML.
- Utilized Django for backend functionalities and React for frontend components, ensuring a cohesive and efficient application structure.
- Implemented jQuery and Bootstrap to enhance the project's interactivity and visual appeal, resulting in positive user feedback.
- Demonstrated strong proficiency in CSS and HTML to design and develop responsive web interfaces that met project requirements.
- Successfully completed the project within the specified timeline, showcasing effective project management and technical skills.
